Information

Executive Project Summary

This form requires Applicant to summarize, at a high level, its proposed Project, including but not limited to the geographic area in which the Project will occur, the primary deployment model (e.g., wireline versus wireless), the estimated start and completion dates of the Project, and a general overview of how Applicant has/will comply with the terms, conditions, and requirements of this NOFA.

Executive Project Summary*

2019 03 15 Adair Executive Summary - State Broadband Grant application.docx

Funding

State the estimated total Project costs (in the form of Allowable Expenditures as calculated in accordance with the terms, conditions, and limitations of the form Budget Plan).

\$1,715,000.00

Add together the sum of column C on Exhibit D and column D on Exhibit D1.

State the total amount of State funds Applicant seeks for the Project (this amount may not exceed fifteen percent (15%) of Applicant's estimated total Project costs).

\$138,900.00

Add together the sum of column E on Exhibit D and column F on Exhibit D1.

Explain why State funds are necessary to initiate/complete a proposed Project, including but not limited to a description of how the Project will or will not proceed if State funds are not ultimately awarded.

Due to the small size of the customer base in Adair, Iowa, the project's feasibility depends on reducing upfront and operational costs as much as possible. The City of Adair has determined that the best way to achieve operational costs savings is to partner with an existing provider, Casey Mutual Telephone, that has the knowledge and experience to provide excellent service rather than the City providing those resources. The State of Iowa Broadband Grant Program will help feasibility and sustainability of the project by lowering the upfront costs of network construction, which will lower the amount of long-term debt the City will need to deploy.

While the City of Adair Fiber Project may still be feasible without State of Iowa support, the grant will greatly improve the chances of the project coming to fruition and the citizens of Adair, Iowa gaining access to fast, affordable, reliable, and ubiquitous fiber-based broadband services for the first time.

Demonstrated Experience

This form requires information about Applicant's demonstrated experience in the provisioning of Broadband across the State of Iowa. Applicant shall include relevant information about their experience that has prepared them to deploy their proposed Project, such as, for example, community partnerships and services; number of years in business; number of years experience providing the types of services sought by this NOFA; if the Applicant is a relatively new provider/market entrant, an explanation of the benefits, if any, of being a newer provider/market entrant; or the level of technical experience in providing the types of services sought by this NOFA.
