To whom it May concern,

I am writing this letter of reference for Western Iowa Networks. We are a PK-12 school district located in Glidden, Iowa.

We have been customers of WIN since 2014. They provide us with broadband service, they manage all of our back ups systems and we contract with them for networking services. In the fall of 2016 we added a Polycom, internet based, phone system as well.

We could not be happier with WIN! We consider them to be a partner in education at Glidden-Ralston. We are a one to one I-pad and computer school from grades PK-12. They provide us with outstanding products and customer service that keeps our program up and running at all times. If we have issues they respond immediately and have things fixed almost instantly.

The one thing I appreciate the most is their willingness to come on site and help us trouble shoot ideas. We have an old building and many times it is a challenge to wire and set up. Many times it has been their willingness to think outside the box and fabricate ways in which we can best provide service to our classrooms and buildings that has helped us be succesful.

I could not recommend them any higher! They are an outstanding company to work with.

In Education,
