To Whom It May Concern,

Manning Municipal Utilities (MMU) has been our internet provider for the Manning Insurance Agency for over 25 years. MMU has been a very progressive utility the last 3 years with building a 23-mile natural gas line to provide natural gas service to FAC Cooperative in Arcadia along with putting fiber optics to every business and home in Manning the last year. They will be completing the fiber optic project in Manning in the next 2 months.

Manning has seen an increase of young adults moving back to the community. MMU has risen to the challenge of providing faster internet and more bandwidth to service their customers. The MMU staff has worked hard and given great service to its customers in Manning and the surrounding communities.

MMU is always looking to improve their service and looking to provide internet service to the rural homes around Manning. COVID-19 is changing the way students are being educated and by providing fiber optics to rural areas around Manning will allow students a better educational tool.

MMU is a great asset to Manning! It is a business partner that gives back to many projects around Manning! We are a very blessed community to have our own utilities.

Sincerely,

A handwritten signature in black ink that reads 'Todd Stadlander'. The signature is written in a cursive style with a long horizontal stroke at the beginning.
