

Sharon Telephone Company will be celebrating 100 years of service to the surrounding area of Hills and Sharon Center. We are run by a Board of Directors who have over 84 years of combined service. Sharon Telephone Company (STC) provides voice, data, and video service to its customer base. These services are feed over both copper and fiber facilities. STC is in the process of replacing 181 miles of copper with fiber in its rural area. The eight staff members provide support for the services which we provide, besides the voice, data, and video we also Install Dish Network and provide business systems to the surrounding area. We maintain the voice network in all three of the school systems in Washington county, plus the Court House and the County Hospital. Working with the schools we understand how critical it is for the students to have great access to high speed broadband at their homes.

The combined service of the employee's is 96 years of service. The STC Board of Directors have always sent the employees for training on all equipment installed or used in the operation of the company. From the transport equipment to fiber to the home (FTTH) equipment.
